PROJECTS

Online Groceries Ordering System

Built a full-stack grocery e-commerce app using the MERN stack with login system, product search, and cart features. Created an admin dashboard for managing products, users, and orders, and added online payment for checkout.

greencart.arjungtm.com.np

Online Doctor Appointment Booking System

Built an online doctor appointment booking system with user authentication, doctor listings, and real-time scheduling. Created a responsive design for easy appointment booking and simple patient management.

arogyanepl.arjungtm.com.np

Student Management System

Built a MERN-based student management system with CRUD operations, including search and pagination for efficient data handling. Designed a responsive interface for managing student records with optimized API integration.

github.com/arjun-gtm/Student-Management-System

UnwindCabins

Built a full-stack cabin booking platform with user authentication, cabin listings, and reservation management. Developed a responsive and modern UI for seamless booking and secure data handling with Admin Panel.

github.com/arjun-gtm/UnwindCabins

ACHIEVEMENTS

- Built and deployed multiple full-stack MERN projects including e-commerce, booking, and student management systems.
- Implemented features like authentication, search, pagination, and role-based access control.
- Integrated Khalti payment gateway for online transactions.
- Developed responsive web applications with complete frontend and backend integration.

TRAINING/CERTIFICATIONS

MERN Stack Training - 3 Months

2026

Mindrivers Institute of Technology

SKILLS

ReactJS, MongoDB(Mongoose) / Node JS (Express Js), Tailwind Css, Git / Github, Java, Deployment: Vercel, Render, Postman, HTML CSS JS, AI Tools, Generative AI Tools, Self Learning

LANGUAGE

Nepali, English, Hindi
